VIA FACSIMILE (703. 299.3339)

Chambers of Judge Gerald Bruce Lee Albert V. Bryan U.S. Courthouse 401 Courthouse Square Alexandria, VA 22314

Re:

Timothy Bateman v. American Airlines, Inc.

Case No. 1:07-CV-1307

Dear Judge Lee:

Per the Court's request, Defendant American Airlines, Inc. ("American Airlines") has attached two documents reflecting Defendant's plan to reduce companywide headcount of the Onboard Services department in 2006. In addition, attached is a document confirming that Mr. Bateman was on unpaid leave between April 23, 2004 and January 6, 2006.

The Onboard Service Headcount dated November 9, 2005 ("November Onboard Service Headcount"), attached as Exhibit A, reflects, among other things, the following information:

- 1. Total headcount for Onboard Services under American Airlines' 2005 Plan;
- 2. The target for 2006, which was a 5% reduction in headcount (system-wide); and
- 3. The current headcount as of the date the report was issued on November 9, 2005.

The headcount and target information is specified for the respective regions within Onboard Services. Plaintiff worked in the NorthEast Region, specifically DCA. In addition, the Court will note that the document includes separate headcounts for management and support staff. The November Onboard Service Headcount reflects that the companywide headcount for managers in Onboard Service was 331.1 in November 2005 with a 2006 target of 321.8. With respect to the NorthEast Region, the November Onboard Service Headcount reflects that the headcount at that time was 55 with a target of 55.1. Thus, at the time of the November Onboard Service Headcount, there was no anticipated need to reduce headcount in Onboard Service management within the NorthEast Region. This demonstrates that the need to reduce headcount among Onboard Services management in the Washington, D.C. area did not become apparent until late December 2005, when Plaintiff

Hon. Gerald Bruce Lee February 23, 2009 Page 2

informed American Airlines that he would be returning to work. Only then did the headcount compliment in DCA rise above the target number. 1

The Onboard Service Headcount dated December 15, 2005 ("December Onboard Service Headcount") is attached as Exhibit C. This document reflects, among other things, the following information:

- 1. Total headcount for Onboard Services under Defendant's 2005 Plan;
- 2. The 2006 Plan, which reflected a 5% system-wide reduction in headcount;
- 3. The headcount as of the date the report was issued on December 15, 2005; and
- 4. The "Variance to Target," which is the difference between the current headcount and the 2006 target headcount.

The December Onboard Service Headcount reflects that the companywide headcount for managers in Onboard Services was 325, but the 2006 target was 321.8. In addition, the December Onboard Service Headcount reflects that, for the NorthEast Region, the headcount at that time was 55 and the target was 55.1. Again, this demonstrates that the need to reduce headcount in the Washington area did not become apparent until late December 2005, when Plaintiff informed American Airlines that he would be returning to work.

Respectfully,

Rafael E. Morell

(Capet F. Morellogn

¹ Plaintiff was on unpaid leave from April 2004 to January 2006 (Exhibit B). The effect of Plaintiff's return to work and the payroll on the headcount and the 2006 reduction in force is described in the Memorandum in Support of American Airlines, Inc.'s Motion for Summary Judgment (p.8-10).
